

Herdwise Historic report

A graphical representation of 'red', 'amber' and 'green' cows is displayed as 'numbers within herd' and as a 'percentage of the herd'.

Johne's Results for the Herd since Commencement

An aggregate data table summarises how many cows from each risk group (J0-J5) along with a summary of their 'traffic light' classification. This allows farmers to track the effectiveness of control measures over several years.

Category	19/11/2008 ELISA1	18/02/2009 ELISA2	20/05/2009 ELISA3	18/08/2009 ELISA4	20/11/2009 ELISA5	15/02/2010 ELISA6	21/05/2010 ELISA7	17/08/2010 ELISA8	17/11/2010 ELISA9	01/01/2011 ELISA10	25/02/2011 ELISA11	19/05/2011 ELISA12
